

FY2017 results (held three times in June, October and February)

Area	Number of participants
Omori Head Office	82
Fujisawa	93
Tochigi	21

The Children's Forest project is implemented by the public interest incorporated foundation, OISCA, to support initiatives in which children plant and care for trees in their schools and local communities themselves, to help instill in children an awareness of the importance of greenery and a love of nature. In this project, Isuzu employees donate used books and their sale value is then donated to the "Children's Forest" project.

FY2017 results; FY2016 results are shown in brackets.

Box for collection of PET bottle caps.

Children planting trees in the Children's Forest project.
